

Bug Report (API)

ID number	#1
Name	CREATE ROUTE - Creates a user without email
Reporter	Ahmed Mostafa
Submit Date	14/11/2023
Summary	When a client hits a create route that has a body without email, it accepts it and doesn't return a response with an error.
URL	http://localhost:3000/api/v1/users [post]
Screenshot	
Platform	Laptop
Operating System	Windows 10
Browser	Chrome 119
Severity	Major
Assigned to	/Backend Team
Priority	High

Description

When a client hits a create route that has a body without email, it accepts it and doesn't return a response with an error.

Steps to reproduce

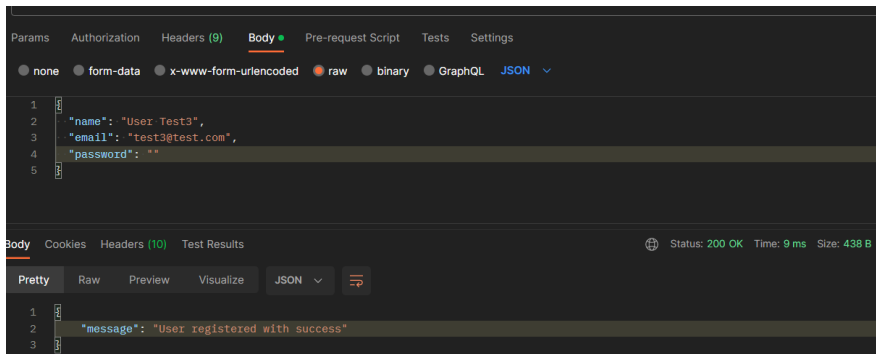

- > Send a post request to "<http://localhost:3000/api/v1/users>"
- > Add body with fields with email empty
- > A success message appears

Expected result

Response with an error status code 401

Actual result

A success message appears

ID number	#3
Name	CREATE ROUTE - Doesn't return a token in response
Reporter	Ahmed Mostafa
Submit Date	14/11/2023
Summary	When a client hits a create route that has a valid body, the response doesn't contain a token.
URL	http://localhost:3000/api/v1/users [post]
Screenshot	
Platform	Laptop
Operating System	Windows 10
Browser	Chrome 119
Severity	Major
Assigned to	/Backend Team
Priority	High

Description

When a client hits a create route that has a valid body, the response doesn't contain a token.

Steps to reproduce

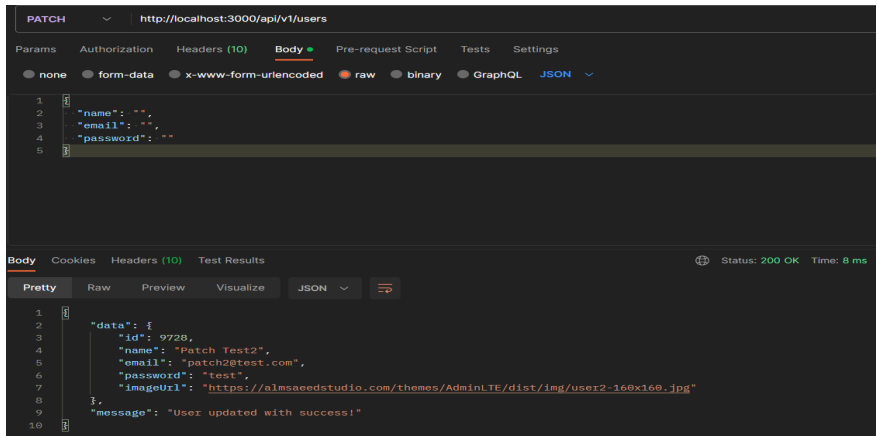

- > Send a post request to "<http://localhost:3000/api/v1/users>"
- > Add body with valid fields
- > Response appears without token field

Expected result

A token field in the response

Actual result

Only message field is in the response

ID number	#4
Name	PATCH ROUTE - No error response when user is updated with invalid credentials
Reporter	Ahmed Mostafa
Submit Date	14/11/2023
Summary	When a client hits a patch route that has an invalid body, the response doesn't contain an error message.
URL	http://localhost:3000/api/v1/users [post]
Screenshot	 A screenshot of a web browser's developer tools showing a PATCH request to the URL http://localhost:3000/api/v1/users. The request body is empty. The response is a 200 OK status with a JSON body containing user data and a success message. The response body is: {"data": {"id": 9728, "name": "Patch Test2", "email": "patch2@test.com", "password": "test", "imageUrl": "https://almasaeedstudio.com/themes/AdminLTE/dist/img/user2-160x160.jpg"}, "message": "User updated with success!"}. The status bar shows "Status: 200 OK Time: 8 ms".
Platform	Laptop
Operating System	Windows 10
Browser	Chrome 119
Severity	Major
Assigned to	/Backend Team
Priority	High

Description

When a client hits a patch route that has an invalid body, the response doesn't contain an error message.

Steps to reproduce

- > Send a patch request to "<http://localhost:3000/api/v1/users>"
- > Add body with empty fields
- > Response appears without error

Expected result

An error in response

Actual result

Successful request
